

## Andrew Young

### Chief Development Officer, Horizon Wind Energy

As Chief Development Officer, Andrew Young oversees all of Horizon Wind Energy's development efforts across North America. As a member of the Executive Committee, he ensures that all functions are aligned to successfully implement the company's business strategies. Andrew also evaluates new business opportunities such as acquisitions and emerging energy technologies.

Andrew most recently led Horizon's New Initiatives efforts, expanding Horizon's footprint in the United States and Canada, and developing strategic approaches for expansion into solar and other new technologies. Andrew first joined Horizon in 2001, establishing the Western Regional Office. Since joining Horizon, he has been directly involved in the development and construction of more than 1,000 megawatts (MW) of operational wind power projects across the United States and Canada.

Since 1995, Andrew has worked in a variety of roles in the wind industry including project engineering, construction management and project development at Vestas, enXco and Horizon. He launched his career as an engineer, working in nuclear power, aerospace, automation, robotics and research and development. Andrew holds an Honors Bachelor of Applied Science degree in mechanical engineering from Canada's University of Waterloo. He also studied aerodynamics and flight mechanics with a focus on wind turbines at the University of Braunschweig, Germany.

Horizon Wind Energy and its subsidiaries develop, construct, own and operate wind farms throughout North America. Based in Houston, Texas, Horizon is owned by EDP Renewables, a global leader in the renewable energy sector that develops, constructs, owns and operates renewable generation facilities. With a sound development pipeline, first class assets and market-leading operating capacity, EDPR has undergone exceptional development in recent years.
